

Defender® APOLLO TOUCH CCTV KIT

An outdoor security surveillance system that is perfect for use in residential areas and commercial environments.

Features a monitor and 2 cameras with an impressive 300m operating range, remarkable 170° field of view for each camera and operates with 1080p HD video.

The Apollo Touch only records motion activated events to optimize memory storage and real-time footage can be viewed remotely on iOS and Android smartphone devices by downloading the free app.

Two-way audio allows you to speak to guests or warn off unwanted visitors. With IP66 weather resistance the CCTV cameras are able to cope with weather extremes from -15°C to 50°C.

Photos and video files are stored directly onto a micro SD card (not included) for playback. Simple to install, with no additional hidden costs or monthly subscriptions.
